

1. Title of the certificate (NL)

Ervaringsbewijs: podiumtechnicus (m/v)

In the original language

2. Translated title of the certificate

Certificate of professional competence: performing arts technician (m/f) (EN)

Titre de compétence professionnelle: régisseur de spectacle (h/f) (FR)

This translation has no legal status.

3. Profile of skills and competences

The occupational standard was developed and approved by the sectoral social partners.

The holder of the certificate of professional competence can:

install technical stage equipment:

- work according to the requirements of the technical documentation and the environmental factors;
- select microphones, cables and lanterns based on the technical documentation;
- fit up technical equipment in a logical order;
- connect technical equipment ensuring its functions, the cables are not twisted and the connections can be traced;
- fit up spotlights, cloths, props and sound equipment on the fly bars, ensuring the maximum distributed load and point load is not exceeded;
- secure all items on the fly bar with a safety cable that is strong enough to secure the weight, minimises the fall height and doesn't obstruct the moving parts;
- place a ballet floor ensuring it is flat, well stretched, and the strips join perfectly.

setup technical stage equipment:

- focus a profile spot with a maximum light output;
- program a digital light board according to the technical documentation;
- setup the sound on a sound desk with tone control, so voices are well understood in the auditorium and no feedback occurs;
- determine the place of the masking (legs and borders);
- setup a beamer for projection and back projection from a laptop, so the image is sharp and the edges of the projection fit the screen.

operate technical stage equipment:

- follow visual and verbal cues;
- ensure light cues are adapted to the live performance;
- provide an alternative to the failure of a particular lantern in order to have a similar result;
- adjust the sound on a sound desk with tone control, when something is not well understood or when feedback occurs;
- provide an alternative to the failure of a microphone or monitor in order to have a similar result;
- operates the fly bars with an agreed speed to the corresponding dead marks.

Explanatory note

This document is designed to provide additional information about the specified certificate and does not have any legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications, Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates, and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.
