Explanatory note

This Diploma Supplement model was developed by the European Commission, Council of Europe and Unesco/CEPES. The purpose of the supplement is to provide sufficient independent data to improve the international 'transparency' and fair academic and professional recognition of qualifications (diplomas, degrees, certificates etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. It should be free from any value judgements, equivalence statements or suggestions about recognition. Information in all eight sections should be provided. Where information is not provided, an explanation should give the reason why.

7. CERTIFICATION OF THE SUPPLEMENT

Date

7.1 15 January 2009

Signature

7.2 1
2

Capacity

7.1 1. Marinka PENEVA, MD, PhD
Dean
FACULTY OF MEDICINE
2. Prof. Anelia KLISAROVA, MD, PhD, DSc
Rector
MEDICAL UNIVERSITY
"Prof. Paraskev Stoyanov" – Varna

Official stamp

7.2

8. INFORMATION ON THE BULGARIAN HIGHER EDUCATION SYSTEM

(prepared by the National ENIC / NARIC center of the Ministry of Education and Science)

Holders of diplomas of completed secondary education have the rights to continue their studies without restrictions as to the type of the higher school. Admission to higher school is based on successfully passed entrance examinations. The type and the number of these examinations are defined by the higher schools and are closely related to their profile. The requirements for student admission, depending on the type of the higher school and the given speciality, comprise written competitive examinations (one or more), tests (with different volume and structure) and a diploma of completed secondary education. The autonomy of the higher schools gives them the rights to define on annual basis the admission requirements. The admission procedure for each speciality is defined on annual basis and made public in the Guide of respective higher school. The system of higher education provides training after completed secondary education and comprises the following degrees:

8.1 . BACHELOR'S EDUCATIONAL AND QUALIFICATION DEGREE. According to the curriculum the acquisition of that degree requires:

- minimum 180 credits with a duration of the studies of at least three years leading to the Professional Bachelor in...degree;
- minimum 240 credits with a duration of at least four years leading to the Bachelor's degree.

8.2 MASTER'S EDUCATIONAL AND QUALIFICATION DEGREE. The requirements for the acquisition are as follows:

- minimum 300 credits according to the curriculum with a duration of the studies of at least five years;
- minimum 120 credits for holders of Professional Bachelor in ... degree
- minimum 60 credits for holders of Bachelor's degree.

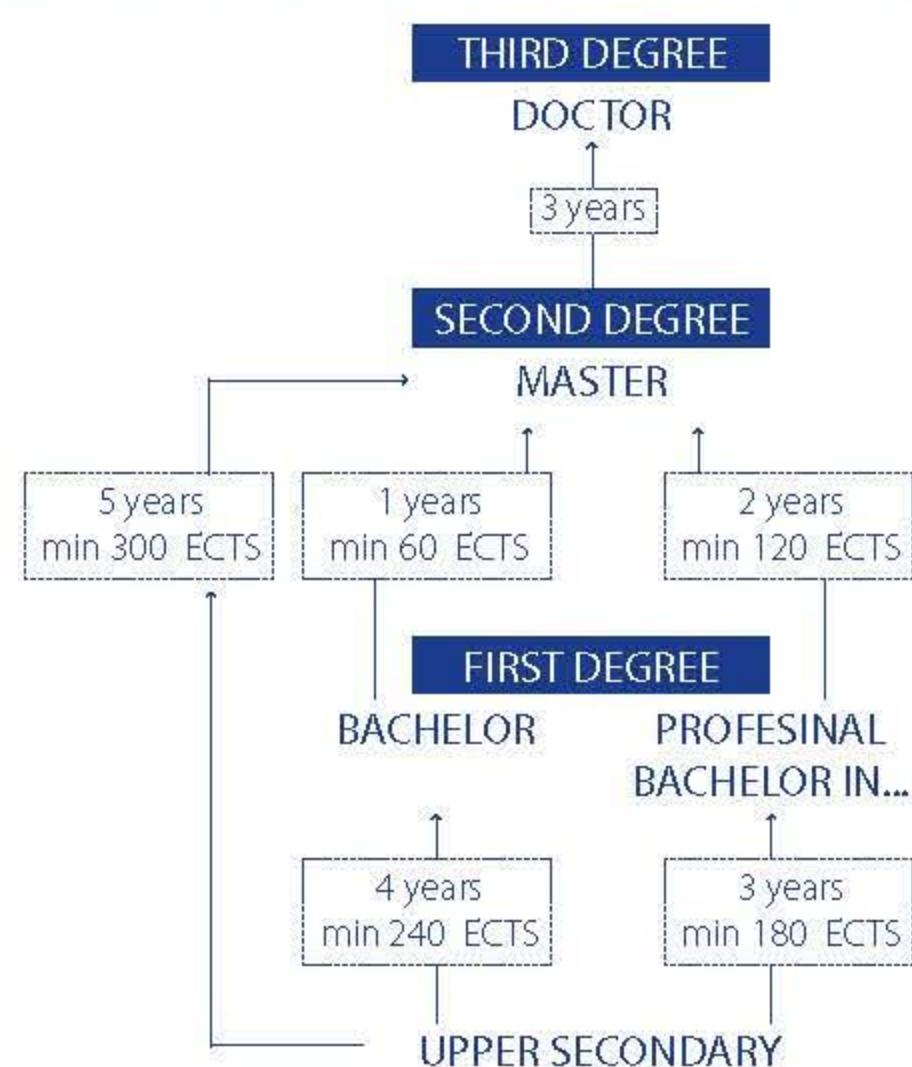

Colleges organize training for the acquisition of the Professional Bachelor in ... educational and qualification degree that provides specialized vocational training in the respective professional sectors and specialities. Holders of the Professional Bachelor in ... educational and qualification degree can continue their training for the Master's educational and qualification degree only in the same professional sector in compliance with the terms and conditions laid down in the Rules of the higher school or in the State Requirements.

Studies for Bachelor's degree organized in compliance with the curriculum provide multi – profiled training or specialized vocational training in professional sectors and specialities. Studies for Master's degree provide profound fundamental training combined with profile – oriented training within a given speciality.

8.3 . STUDIES FOR DOCTOR'S EDUCATIONAL AND SCIENTIFIC DEGREE are carried out in scientific specialities.

Diplomas for completed degree are issued upon the successful completion of all duties included in the curriculum, irrespective of the calendar duration of studies."
